

I would like to see the number of the policy included in the title:

A Precarious Policy: Executive Order 14,004 Involving U.S. Trans Military Service

The abstract is not comprehensive and has areas that need to be addressed. Also, I have several questions:

1. The abstract states: *"We use Kingdon's (2010) Multiple Streams Framework to highlight successful policy adoption and transitions"*. I do not find any reference to this Framework throughout the article.
2. This sentence is unclear to me: *"We discuss the beneficial aspects of trans the U.S. military's inclusion of trans people, and the harm exclusion of this population will do to U.S. military readiness"*.
3. It needs to include: explore issues of health and mental health, and compare Transgender and Cisgender Military Healthcare.

English quality is good but Few comments:

"gender-diverse individuals" is first mentioned on page 16; there is no definition of this term. It either needs to be included and explained early in the paper or taken out completely.

On page 4- I do not understand: military shaveis On page 14 under:

The Overgeneralization of Gender Dysphoria- military str based

The manuscript requires changes in the areas mentioned above.

After changes are addressed, especially the Abstract, it can be published.
