

Binge drinking among college students has been a persistent problem for decades. This behavior can lead to poor health outcomes and poor academic performance.

Abstract is acceptable. While author denotes statistical differences among classifications & race, it doesn't say what those differences are...which would be helpful

Overall, this manuscript addresses an important issue. The manuscript could benefit from some additional references. See comments

Consider adding a reference or two from the last 5 years to demonstrate it is still an issue

Adding a brief description of YRBS, a statement about its validity & reliability, when the data was collected, and type of sampling.

This section would benefit from some additional references, as well as a brief discussion of how it is similar or different from recent studies.
