

## **EMPLOYEE-SUPERVISOR FIT AND CORE VALUES IN PHYSICAL THERAPY PRIVATE PRACTICE: A MIXED-METHODS STUDY**

### **Review 2**

I think the manuscript topic is important as the PT community attempts to quantify behaviors consistent with ethical aspirations.

The title of the article- Appropriate

The abstract is consistent with the article.

The English quality of the article is suitable for **scholarly communications & article is well written.**

In the significance of the study section, I would like a couple of sentences about the relevancy of the two articles referred. I question whether they truly add value to the study. The references are recent and for the most part appropriate. If you add more citation, it's great.

**My concern is that the sample size is not sufficiently large to provide much usable or generalizable information.**

**I understand the difficulty in conducting survey data; however, the results must be useful. I think larger local/regional sample would greatly enhance this study.**
