

Dear Reviewers,

Thank you very much for the reviewers' valuable feedback and for the opportunity to improve our manuscript.

We would like to confirm that **all the requested changes and recommendations have been addressed in the revised version of the manuscript**, including:

- Clarifications on the research gap and contribution to the existing body of knowledge.
- Adjustments to the title and abstract to better reflect the study's scope.
- Detailed description of the methodology, including questionnaire validation and statistical considerations.
- Expansion of the results and discussion to address confounding variables and provide comparisons with studies from other countries.
- Improvement of references and inclusion of additional international literature.
- Revisions following APA 7th Edition formatting guidelines.
- Incorporation of reviewers' suggestions regarding keywords, focus group representation, rural contexts, socio-economic factors, and training recommendations.
- Enhanced visuals, including tables and figures, to strengthen data presentation.

We sincerely appreciate the reviewers' constructive comments, which have significantly improved the quality and clarity of our work.
