

Thank you for giving us opportunity to review the article-

Below are my comments-

1. Word choices are most important for article preparations. I have mentioned in the article, please check.
2. Provide sources and evidence in introduction part while describing equity for black community
3. Add specific context while addressing historical discrimination.
4. Add additional context. What societal injustices? Use this opportunity to educate the reader on the historical context and examples of why AA was formed. Provide examples of the historical account of injustices. AA or affirmative action? Be consistent in your use throughout the paper. Rewrite sentence. Unclear on the use of capabilities.
5. Citations are missing, please add references.
