

I have reviewed the revision article. There are two final corrections to make. First, I do believe the title should be changed to reflect the contribution to the literature of the author better, to "Racialized Polarization and Latinx Perceptions of Political Representation: A Meta-Analysis Using PRISMA." Second, there is a repeated section on pages 8-9 of the manuscript: "The Impact of Minority Districting." One of the versions of that section needs to be deleted.

Otherwise, the author has satisfied my requests for modifications. Once the author has made these two final changes, I should give it one final look-over before publication.
