

Reviewer-2

In today' s controversies regarding immigration. Educating the public as well as social work and other human service professionals on the plight of children who are unaccompanied needs more attention.

The manuscript is well organized. The sections are appropriate and sub headings are quite specific regarding the content and discussion.

There is excellent documentation via relevant and current references.

This is a well written manuscript which contains relevant content and context. The use of related policy and implications for professionals is a useful and encouraging contribution to the subject of services for children and youth who experience family and community situations which are followed by efforts to migrate to other geographic locations.
